

SkinWhiteBoard®

unlimited whiteboard

SkinWhiteBoard® unlimited whiteboard

With the **ROCADA® SkinWhiteBoard®** any space or wall becomes an efficient writing and creative surface, or a well-organized meeting space.

The endless possibilities offered by this product offer a solution to the business and private community alike.

The simplicity and benefits in transportation, installation and use of **SkinWhiteBoard®** will revolutionize the visual communication market.

$$\sin 2\theta = 2 \sin \theta \cos \theta$$

Proof: $\sin(\theta + \theta) = \sin \theta \cos \theta + \cos \theta \sin \theta$
 $= 2 \sin \theta \cos \theta$

eg. $\sin 15^\circ \cos 15^\circ = \frac{1}{2} \sin 30^\circ = \frac{1}{2} \left(\frac{1}{2} \right)$
 $\sin \theta \cos \theta = \frac{1}{2} \sin 2\theta = \frac{1}{4}$

$\sin 2\theta \Leftrightarrow \sin \theta \times \cos \theta$

"This innovative and ingenious design delivers advantages not seen before in the whiteboard market and offers cost savings from storage, transportation logistical and installation. The **SkinWhiteBoard**® is 100% made in Europe with strong and durable materials, using the latest technology resulting in efficiency in transport and unparalleled storage costs savings".

Noted Josep Roca. **Chairman.**

SkinWhiteBoard® *unlimited whiteboard*

It is a solution designed for all kinds of working environments, especially business, planning and education. It is the perfect solution for teaching and creative problem solving that is limited only by your imagination, or the size of your room.

The office has always been the natural home for a whiteboard; now with **SkinWhiteBoard®** you will also be able to offer your customers a unique modular solution that can expand with their changing demands.

The new solution allows easy installation in tight and / or difficult to access spaces, enabling new uses in areas where a whiteboard was difficult to fix, for example gyms and fitness rooms, factories, shops and commercial spaces, corridors and waiting rooms, schools and nurseries, etc.

SkinWhiteBoard® *unlimited whiteboard*

We have highlighted 10 key benefits

SKINWHITEBOARD IS A SOLUTION PATENTED BY ROCADA.

- 1 A compact, modular and lightweight solution, ergonomic and economic. **SkinWhiteBoard®** can be assembled by one person whatever its final shape and size may be.
- 2 Because it is not restricted by a fixed frame, it is the only modular whiteboard in the market that allows you to create a white board from standard sizes to whole walls.
- 3 A single reference. With **SkinWhiteBoard®** you can achieve any size from 80 cm to any length, height and position.
- 4 Perfect finishes. Magnetic. Steel sheet made (0.7mm). It is the strongest whiteboard on the market.
- 5 With a total thickness of 10mm, it is the thinnest and most compact in the market. It includes a strong tray for pens and notebook accessories.
- 6 Unbreakable, built in one piece, without plastic corners, fragile aluminium frames or breakable assembly components.
- 7 Back side made in polyethylene material. It may absorb the noise as well as the walls humidity.
- 8 Lacquered in white as standard, it can also be customized by screen printing or solvent digital printing (eco-printing).
- 9 Its compact design and special packaging system reduces returns and damage in transit or installation by 100%. It is stackable and has the individual Euro-pallet format.
- 10 **SkinWhiteBoard®** is the most economical solution in the market for its savings on transportation costs, storage and installation.

SkinWhiteBoard® *unlimited whiteboard*

The transport and installation of very large whiteboards poses many difficulties, for instance damage in transit, expensive to ship. Assembly and installation requires two or more people, and often specialised tools, or skills, and can involve expensive plant such as cranes, special lifts or hoists, etc. The storage of multiple references for existing sizes is costly as regards space and resource.

With **SkinWhiteBoard®** these problems are avoided by 100%.

SkinWhiteBoard® allows an easy and logical transport because it is a modular solution. Its individual packaging gives guaranteed security and protection through transport to installation. It is stackable and it has standard sizes according to the Euro-pallet format.

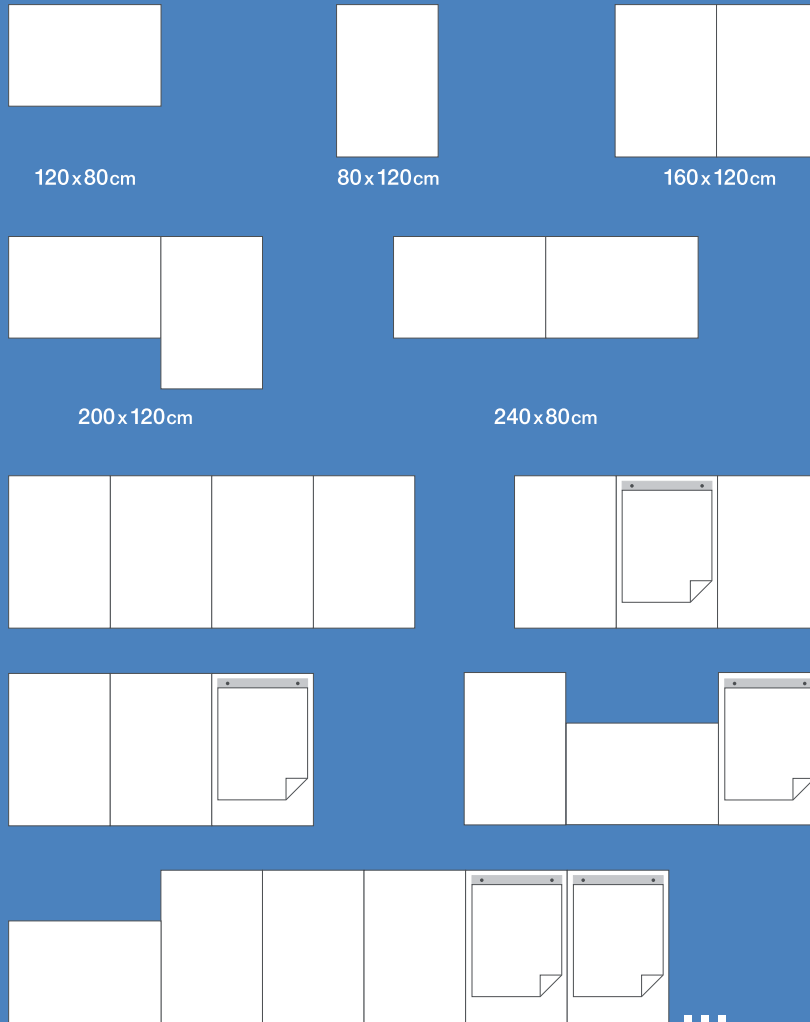

Due to the patented modular fixing, boards can be assembled into any size of surface you desire.

SkinWhiteBoard® from **ROCADA®** is the most adaptable solution on the market. It allows unprecedented board sizes and a wide range of possible surfaces. The absence of outside constraints, such as frames, corners, anchorages, makes SkinWhiteBoard an ideal solution in any environment and surface finish.

Overall sizes by reference:

Vertical	60 x 80 cm (usable 58 x 78 cm)
	80 x 120 cm (usable 78 x 118 cm)
	100 x 150 cm (usable 98 x 148 cm)
Horizontal	80 x 60 cm (usable 78 x 58 cm)
	120 x 80 cm (usable 118 x 78 cm)
	150 x 100 cm (usable 148 x 98 cm)
